X-FACTOR OFF-ROAD

Designing luxurious caravans with sophistication and practicality in mind is second nature to the team at Franklin Caravans, and the extra-tough X-Factor Off-Road range is no exception.

Outfitted with a cutting-edge aluminium interlocking structure, constructed on an Australian-made chassis and featuring Cruisemaster independent suspension, X-Factor guarantees the strength needed to travel to the remotest corners of this vast country of ours. Complementing the durable timber-free framing is a one-piece sandwich panel composite roof and composite flooring for reduced weight and improved thermal comfort. Our range starts from a convenient 17'6" van with no compromises, to a spacious 22'5" van with rear club lounge and centre ensuite; meaning you can enjoy a more comfortable ride when towing across Australia and more luxury while relaxing inside your new van.

Take advantage of Franklin's latest X-Factor Off-Road range and Get Connected to Your Lifestyle.
